

Computational Studies of Ca^{2+} Induced Membrane Fusion and Electron Injection of Dye-Sensitized Solar Cells

Speaker:

Professor Hui-Hsu Gavin Tsai

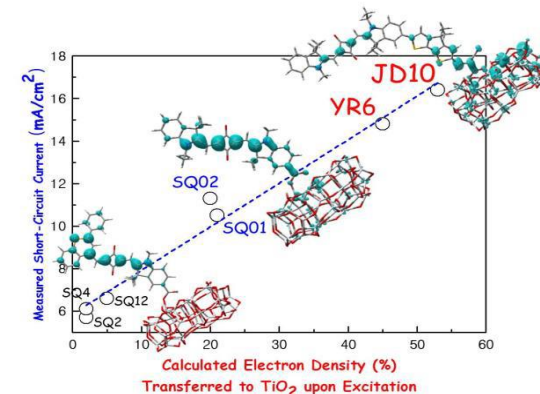

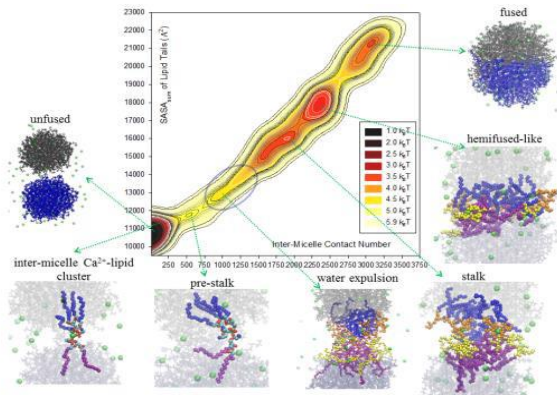

Department of Chemistry, National Central University (NCU), Taiwan

Date & Venue:

July 27th, 15:00-, B301 room, School of Science

Topics:

- I . Molecular Dynamics Simulations of the Molecular Mechanism of Ca^{2+} -Induced Membrane Fusion
- II . Computational Investigation of Electron Injection of Dye-Sensitized Solar Cells

Manabu Abe (7432)
