

# 常識を 超える。

*Only those who attempt  
the absurd can achieve  
the impossible.*

—Albert Einstein

馬鹿げたことを試みる者のみが、  
不可能なことを  
成し遂げることができる。  
—アルベルト・アインシュタイン

Ph.D. students explain their research with a single slide in limited three minutes, in a language appropriate to non-specialist audience. Send your vote to the future star with your vote!

10:00	Doors Open	© MC: Rumi BURGEL (Freelance announcer)
10:30	Opening Ceremony (Opening Remarks by Takashi TAKATA, Executive and Vice President, Hiroshima University)	
10:35	<b>Research Frontline to Create our Future!</b> <b>"HIRAKU programs to open up futures for young researchers"</b> by Misako AIDA, Executive and Vice President, Hiroshima University	
	 <b>"Value of Pigs – More than Pork!"</b> What do pigs remind you of? Maybe pork? Pigs are now drawing attention of researchers in the biomedical studies and regeneration medicine, with their potentials as experimental animals. With the recent development of genome editing technology, the use of pigs is expected to be more expanded. Let me introduce how we are trying to create genome-edited pigs. Fuminori TANIHARA Assistant Professor, Tokushima University	 <b>"When to do? Maybe not NOW?"</b> We all "eat", "move our bodies" and "sleep" everyday. These are three core actions we take in our daily life, paying less attention to the timing, though we try to keep regular hours. New facts have been brought to light that it would give positive effect on our bodies if we take these actions at the right timing. I would like to introduce a part of the research outcome. Hitomi OGATA Assistant Professor, Hiroshima University
11:00	<b>Keynote Speech "Unleash your Potential!"</b> Why public speaking skills are needed? How do we benefit from those skills? Reiko Masui, 2016 Japan champion of public speaking, will talk about how the public speaking skills will contribute your future career and your life.	
11:15	By Doctoral Students	English Section
	<b>Create your Future in Three Minutes!</b> 16 doctoral students from universities located in the West Japan showcase their research in limited three minutes.	
12:15	Lunch Break	[Concurrent Event] "Create your Future with One piece of Paper! Poster Session"
13:00	<b>Special Session by Hiroshima University Disaster Investigation Team</b> <b>"Lessons learned from the West-Japan Torrential Rain"</b> Assess the past, present and the future state of the disasters, based on the facts identified from the data or from the site visits	
13:50	By Doctoral Students	Japanese Section
	<b>Create your Future in Three Minutes!</b> 15 doctoral students from the West-Japan showcase their research in limited three minutes.	
14:50	[Concurrent Event]	"Create your Future with One piece of Paper! Poster Session" by high-school students
15:50	Speech Workshop by Toastmasters International Learn TIPS to speak in public from the Table-Topics experts	
16:30	Awards Ceremony	
17:00	Closing Ceremony	©Message to Future Doctors by Yuko HARAYAMA (Honorary Professor, Tohoku University) ©Closing Remarks by Kenji HORI (Executive and Vice President, Yamaguchi University)

### Prizes

- |                           |                         |
|---------------------------|-------------------------|
| ★ Winner (Judge's choice) | ★ Sponsor Awards        |
| ★ Global Challenge Award  | • Otsuka Award          |
| ★ Runner-up               | • Kyowa Hakko Bio Award |
| ★ People's Choice Winner  | • Springer Nature Award |
|                           | • Chugai Technos Award  |
|                           | • TODA KOGYO Award      |
|                           | • IBM Award             |
|                           | • JSW Award             |

Note: Program is subject to change. Gathering session is scheduled after the competition for contestants and those concerned.

Concurrent Event

## Create your Future with One piece of Paper! Poster Session

High-school students or future researchers-to-be will make poster presentation.

**Publicized at the lobby of the large hall at Kurara**

## What's "Home for Innovative Researchers and Academic Knowledge Users (HIRAKU)"?

The HIRAKU program is operated by Hiroshima University as the Lead Partner Organization, Yamaguchi University and Tokushima University as Partner Organizations. It nurtures young researchers with cross-disciplinary challenges, which will eventually enhance their will and passion to change society. The program forms the industry-academia-government consortium, engaging national, prefectural, municipal, and private universities mainly in the Chugoku and Shikoku regions, as well as a large number of institutions/corporations in public and private sectors, aiming to increase opportunities to leverage exceptional competencies of young researchers that lead future generation.
