

第40回(2018年度第6回) 極限宇宙研究拠点 (CORE-U) Seminar

Date : 20/Sep./2018 (Thur.)11:00-12:30

**Place : Room E002, Graduate School of Sci.
Hiroshima Univ.**

Speaker : Robert Garisto
Editor of Physical Review Letters

Title : Secrets of PRL

Abstract:

I'll give a view inside of Physical Review Letters (PRL). I'll describe how the review process works, how we pick our highlighted papers, and how things have changed since we raised standards four years ago—notably how we are asking more of authors, referees, and ourselves. I will also present some illuminating statistics and talk about journal metrics. If there is time, I will give you some advice on how to succeed with your PRL submissions, and share a few anecdotes.
