

Sincere greetings to all my dear friends,

I hope you are all doing great!

This is Elahe! I am a first-year student in IGS and I am Iranian.

I know that these days, many of you have been busy thinking about your future career and the right major to study. I want you to know I've also gone through this and I completely understand how you feel. But I also have to say that I've never been this satisfied before and I really do love my major.

I truly believe that many of you want to make a change in our world, like me and my other IGS fellows. If you are interested in subjects such as cultural studies, human rights, peace building and environment, IGS is the best option for you. One of many great advantages of IGS is that you can study a wide range of topics.

I always thought that college life is going to be a very nice time in one's life. But what I experienced in IGS was much greater and better than my expectations. And now I am so happy and grateful to be a part of it.

IGS is an international family. The atmosphere here is very supportive, friendly and warm. You can easily make great friendships with all other fellows and of course, staff members. So, I can assure you that you will feel like at home here, and you will find an awesomely kind family.

I really hope that you join our family one day. And I can't wait to see you here. Let's make great memories together!

I know you all have many great goals and dreams, and I wish you the very best.

Yours truly,

Elahe Nassr
