

The 6th Achievement Presentation by Special Postdoctoral Researcher (SPR) at Hiroshima University

Program of the day (Language: Japanese, English)

1. What is SPR program
2. Self-introduction of SPR
3. Achievement Presentation by SPR

What is SPR program?

- A career-support program for doctorate degree holders, aiming to nurture future leaders in the academia or in the industry;
- Support of numerous opportunities for SPR :
 - To improve their practical skills and research development skills, which will diversify their career paths in and outside the academia;
 - To continue their own research at the host organization (lab) to deliver results, apply for the Grants-in-Aid for Scientific Research (KAKENHI) or conduct collaborative research with the industry.
- ❖ You can learn more about the program and grasp some image of SPR through their presentation on the internship experience as well as their research achievement.
- ❖ The ones who wish to attend, please register on the internet or scan the QR code below to register in advance. ※ On-site registration: OK!!!
