Video-conferencing only	No Entry	*All extracurricular activities are prohibited, except for certain activities that require looking-after of living organisms.

The afore-mentioned activities restriction index may be subject to change according to the circumstances regarding the spread of infection from this point of time onwards.

Please find the instructions regarding extracurricular activities on HU's website.

(※1) Those who engage in essential research activities and lab assets maintenance (taking care of living organisms, replenishing liquid nitrogen, etc.)

must obtain permissions from the respective graduate school's dean or research center director in advance. (Application form in Japanese)

(※2) The following individuals are not subject to the restrictions above: those who have registered in advance to attend the online classes on campus due to a lack of network connectivity at home.
