Division of Advanced Science and Engineering of the Graduate School of Advanced Science and Engineering (Master's Course) Admission Policy

The Division of Advanced Science and Engineering of the Graduate School of Advanced Science and Engineering seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① An ambition for the promotion of advanced and high-level academic and inter-disciplinary research;
- ② The will to be engaged in professional occupations such as researchers and engineers in areas related to natural science, engineering, and information science;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to natural science, engineering, and information science as well as a wide range of intelligence; and
- ④ Common sense and ethics required for a member of society.

II Outline of Entrance Examination

1. Schedule of the Entrance Examination

(1) Mathematics Program / Physics Program / Earth and Planetary Systems Science Program / Basic Chemistry Program

Application period	Date of the entrance examination	Examination subject	Examination result announcement
Monday, January 4, 2021 – Friday, January 8, 2021	9:00 -, Friday, January 29, 2021	Written examination Oral examination	Planned to be 12:00 -, Friday, February 19, 2021
	(Preliminary day: Saturday, January 30, 2021)		

(2) Applied Chemistry Program / Mechanical Engineering Program / Transportation and Environmental Systems Program / Architecture Program / Civil and Environmental Engineering Program / Quantum Matter Program

Application period	Date of the entrance examination	Examination subject	Examination result announcement
Monday, January 4, 2021 – Friday, January 8, 2021	9:00 -, Thursday, January 28, 2021	Written examination	Planned to be 12:00 -, Friday, February 19, 2021
	9:00 -, Friday, January 29, 2021	Oral examination	
	(Preliminary day: Saturday, January 30, 2021)		

(Caution)

For both (1) and (2) above, in the difficult case of carrying out the entrance examination because of bad weather, epidemic, etc., the entrance examination may be held on the preliminary day. Postponement of the examination, extension of the starting time of the examination and so forth will be notified on the website of the Graduate School of Advanced Science and Engineering (<https://www.hiroshima-u.ac.jp/adse>). Please keep yourself updated.

2. Application Eligibility, Required Documents and Selection Process

Refer to the page for each Program listed in the section "III Application Eligibility, Required Documents and Selection Process" (page 7) and confirm the application eligibility, the required documents and selection process (examination subject, basic policy, and evaluation criteria) for each Program.

3. Application Procedure

(1) Your application will be accepted via internet during the application period.

Refer to the procedure described in the section "IV Application Procedure" (page 23-25).

(2) Deliver or mail your application documents specified by each Program to the respective Support Office listed in the section "I Programs and Number of Students to be Admitted" (page 4).

The Support Office is open from 8:30 to 17:00 during the application period for the applicant who delivers the application documents.

In the case of submission via mail, the documents must be sent in a registered mail and reach us no later than 17:00, Friday, January 8. The documents received after this time shall be accepted only when it is postmarked no later than Wednesday, January 6.

4. Result Announcement

We will send the acceptance certificate and the admission guide to the successful applicants by mail. An announcement will also be made on the website of Graduate School of Advanced Science and Engineering, Hiroshima University (<https://www.hiroshima-u.ac.jp/adse>). The announcement on the website is made as part of information provision and does NOT grant admission officially in any way.

Only mailing of the acceptance certificate should be regarded as an official announcement of admission. Please also note that an announcement will not be made through posting on the bulletin board on campus.
(We do not answer any inquiry via phone.)

III Application Eligibility, Required Documents and Selection Process

Note that the application eligibility, the required documents and selection process vary for each program. For the details, refer to the page listed in the table below.

Science Programs

(Mathematics/Physics/Earth and Planetary Systems Science/Basic Chemistry)

1. Admission Policy

【Mathematics Program】

The Mathematics Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① A strong questing mind for the mathematical truth and an ambition to make a progress in specialized and/or inter-disciplinary research of mathematics;
- ② The will to be engaged in professional occupations such as researchers, educators, and engineers in mathematics areas;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to mathematics as well as a wide range of intelligence; and
- ④ Common sense and ethics required for a member of society.

【Physics Program】

The Physics Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① The will to obtain state-of-the-art knowledge in areas of physics based on the point of view of researchers on a top international level;
- ② The will to obtain fundamental knowledge in contemporary physics to be engaged in researching jobs, educational jobs, and/or advanced engineering jobs related to areas of physics;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to physics as well as a wide range of intelligence; and
- ④ Common sense and ethics required for a member of society.

【Earth and Planetary Systems Science Program】

The Earth and Planetary Systems Science Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① An ambition for acquiring advanced expertise and research techniques related to the earth and planetary systems science;
- ② The will to be engaged in professional occupations such as researchers, educators, and engineers in areas of the earth and planetary systems science;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to mathematics as well as a wide range of intelligence, in addition to a strong curiosity about not only the earth and planetary systems science but also for the other areas; and
- ④ Common sense and ethics required for a member of society.

【Basic Chemistry Program】

The Basic Chemistry Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① Basic knowledge and ability of comprehension, examination, and presentation regarding the basic chemistry and an ambition for taking part in the academic and/or inter-disciplinary research;
- ② The will to be engaged in professional occupations such researchers and engineers in basic chemistry areas;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic

- areas related to basic chemistry as well as a wide range of intelligence; and
- ④ Common sense and ethics required for a member of society.

2. Application Eligibility

Those who are of a non-Japanese nationality, live in Japan at the time of application for admission, must meet either of the following categories:

- (1) A person who has graduated from a university or college, or is expected to graduate
- (2) A person who has earned a bachelor's degree from the National Institution for Academic Degrees and Quality Enhancement of Higher Education according to the provision of Section 7 of Article 104 of School Education Act (Act No. 26 of 1947) or is expected to earn (hereinafter referred to as "expected graduate").
- (3) A person who has passed through a 16-year school education program in a country other than Japan or is expected to pass through.
- (4) A person who studied the class subjects in Japan in a correspondence course provided by a foreign school to pass through the 16-year school education program in the concerned foreign country or is expected to pass through.
- (5) A person who has passed through an education program (limited to that for which the person who has passed through the program is regarded as pass through the 16-year education program of the school education in the concerned foreign country) of a foreign education institute that is established as an institute which offers university education in the school education system in the concerned country and is separately specified by the Minister of Education, Culture, Sports, Science and Technology (MEXT), or is expected to pass through.
- (6) A person who has been awarded a degree equivalent to a bachelor's degree after passing through a course of which the term is 3 years or longer (including a person who studied the class subjects in Japan in a correspondence course provided by a foreign school and passed through the concerned education course; and a person who passed through the education course in an education institution which is established within the school education system in the concerned foreign country and is approved by MEXT as described below) in a university or the other school in a foreign country, which has been evaluated for the comprehensive conditions of the education and research activities by a person who is authorized by the government of the concerned foreign country or specified as a corresponding institution by MEXT.
- (7) A person who has passed through the postsecondary course of a professional training college (limited to that meets the criteria specified by MEXT, such as 4 years or longer course term) which is separately specified by MEXT after the date specified by MEXT, or is expected to pass through.
- (8) A person who is specified by MEXT as defined in the Notification of Ministry of Education, No. 5 of 1953 (e.g. a person who graduated from a university established under the University Ordinance in 1886 or a college established under a law stipulated for the concerned government agency regarding its establishment such as the act for establishment, order for organization, and individual law for the Incorporated Administrative Agencies).
- (9) A person who entered a graduate school according to Section 2 of Article 102 of the Act and then is approved by our Graduate School to have academic capabilities required for the education in the Graduate School.
- (10) A person who is 22 years or older and is determined to have capabilities equivalent or superior to a graduate of a university in the admission eligibility examination.

(Caution 1) The Applicant who is expected to meet either of the categories of the item (1) to (8) above must be expected to graduate or pass through by September 30, 2020 for October 2020 admission, and by March 31, 2021 for April 2021 admission.

(Caution 2) The applicant who falls under the category of the item (9) or (10) above must undergo a preliminary evaluation of application eligibility (refer to "3. Prerequisites for Application").

3. Prerequisites for Application

(1) Preliminary Examination

The applicant who falls under the category of the item (9) or (10) must undergo a preliminary evaluation of application eligibility. The concerned applicant must follow the following procedure.

a) Application Period

Monday, December 7, 2020 - 17:00, Friday, December 11, 2020

(In the case of submission via mail, the documents must be sent in a registered mail. Indicate the phrase "Application Form for Preliminary Evaluation is enclosed." in red on the front surface of the envelope.)

b) Application Documents

Download the specified forms (a, b and c) from the web site of the Graduate School of Advanced Science and Engineering.

Document Name		Note
a	Application Form for Preliminary Evaluation	Use the specified form to prepare.
b	Record of Application Eligibility Evaluation	Use the specified form to prepare.
c	Reasons for Application	Use the specified form to prepare.
d	Research plan	Must use A4 sized paper; any format acceptable. Attach a list of research achievements, if any.
e	Academic transcript from the last school attended	applicants under category (9): undergraduate academic performance record
f	Certificate of graduation from the last school attended	applicants under category (9): certificate of current enrollment/expected graduation
g	Return envelope	Use standard envelope (12cm×23.5cm in size) and fill out your address and name; affix a 374-yen stamp to the front.

(Caution) It is required to attach the English or Japanese translation to the application document written in the other language.

(2) The evaluation results will be notified to the applicant by Monday, December 28, 2020.

(3) The applicant who has successfully passed a preliminary evaluation must submit the application documents (except the ones which have been already submitted in a preliminary evaluation) specified for each program. Refer to the documents listed in the following section "4. Application Documents".

4. Application Documents

After making the application via internet, submit all the documents listed below at once during the application period to the address indicated in the "Submission Address for Application Documents" (page 4).

(Caution 2) The applicant who has successfully passed a preliminary evaluation of application eligibility need not submit the document No. 1 and 2 above.

5. Selection Process

(1) Basic Policy

○Mathematics Program

Written test (specialized subject) and oral test examine each applicant's basic knowledge concerning the specialized subject, as well as his or her powers of understanding, observation, expression, etc. Be sure to contact our office for the details of examinations.

○Physics Program

Written test (specialized subject) and Oral test examines each applicant's basic knowledge concerning the specialized subject, as well as his or her powers of understanding, observation, expression, etc.

○Earth and Planetary Systems Science Program

Written test (specialized subject) and Oral test examines each applicant's basic knowledge concerning the specialized subject, as well as his or her powers of understanding, observation, expression, etc.

○Basic Chemistry Program

Written test (specialized subject) and Oral test examines each applicant's basic knowledge concerning the specialized subject, as well as his or her powers of understanding, observation, expression, etc.

(2) Evaluation Criteria

○Mathematics Program

【Written examination】 Specialized subject (max. 400 points)

【Oral examination】 Scale of 1 to 4 (A, B, C, D)

【Academic transcript】 Scale of 1 to 3 (A, B, C)

○Physics Program

【Written examination】 Scale of 1 to 4 (A, B, C, D)

【Oral examination】 Scale of 1 to 4 (A, B, C, D)

【Academic transcript】 Scale of 1 to 3 (A, B, C)

○Earth and Planetary Systems Science Program

【Written examination】 Scale of 1 to 4 (A, B, C, D)

- 【Foreign language】 TOEIC® or TOEFL® scores converted to max. 200 points
- 【Oral examination】 Scale of 1 to 4 (A, B, C, D)
- 【Academic transcript】 Scale of 1 to 3 (A, B, C)

○Basic Chemistry Program

- 【Written examination】 Scale of 1 to 4 (A, B, C, D)
- 【Oral examination】 Scale of 1 to 4 (A, B, C, D)
- 【Academic transcript】 Scale of 1 to 3 (A, B, C)

(3) Written Examination and Oral Examination Schedule

Program Name	Written Examination	Oral Examination

(Caution 1) Details of the Written test will be communicated to the applicants on the day of the Written test.

(Caution 2) For the contents of the written examination in specialized subject, refer to “(4) Contents of Written Examination in Specialized Subject”.

(Caution 3) Those applying for admission to the Mathematics Program must contact the program regarding the content of the examination before application.

(4) Contents of Written Examination in Specialized Subject

Program Name	Contents
Mathematics Program	Basic questions concerning mathematics
Physics Program	Four questions concerning dynamics, electromagnetics, quantum dynamics, and thermal / statistical dynamics
Earth and Planetary Systems Science Program	Six questions concerning earth and planetary systems science; four questions must be chosen and answered.
Basic Chemistry Program	Basic questions from respective branches of chemistry

Engineering Programs

(Applied Chemistry / Mechanical Engineering / Transportation and Environmental Systems / Architecture / Civil and Environmental Engineering)

1. Admission Policy

【Applied Chemistry Program】

The Applied Chemistry Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① An ambition for academic research and inter-disciplinary activities;
- ② The will to be engaged in professional occupations such as researchers and engineers in applied chemistry areas;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to applied chemistry as well as a wide range of intelligence; and
- ④ Common sense and ethics required for a member of society.

【Mechanical Engineering Program】

The Mechanical Engineering Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① An ambition for academic research and inter-disciplinary activities;
- ② The will to be engaged in professional occupations such as researchers and engineers in mechanical engineering areas;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to the mechanical engineering as well as a wide range of intelligence; and
- ④ Common sense and ethics required for a member of society.

【Transportation and Environmental Systems Program】

The Transportation and Environmental Systems Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① An ambition for academic research and inter-disciplinary activities;
- ② The will to be engaged in professional occupations such as researchers and engineers in areas of the transportation system engineering or the environmental system engineering;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to the transportation system engineering and the environmental system engineering as well as a wide range of intelligence; and
- ④ Common sense and ethics required for a member of society.

【Architecture Program】

The Architecture Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① An ambition for academic research and inter-disciplinary activities;
- ② The will to be engaged in professional occupations such as researchers and engineers in architecture areas;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to architecture as well as a wide range of intelligence; and
- ④ Common sense and ethics required for a member of society.

【Civil and Environmental Engineering Program】

The Civil and Environmental Engineering Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- ① An ambition for academic research and inter-disciplinary activities;
- ② The will to work as a high-level engineer or researcher in areas of civil and environmental engineering including disaster prevention and mitigation engineering;
- ③ A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to the civil and environmental engineering as well as a wide range of intelligence; and
- ④ Common sense and ethics required for a member of society.

2. Application Eligibility

The applicant must be of a non-Japanese nationality and meet either of the following items:

- (1) A person who passed through a 16-year school education program in a foreign country, or is expected to pass through by the time of March, 2021;
- (2) A person who has been approved by the Graduate School of Advanced Science and Engineering as having academic abilities equivalent or superior to those of bachelor's degree holders according to the result of the admission qualification examination separately conducted, and is 22 years or older by the time of March 31, 2021.

(Caution 1) The applicant who falls under the category of the item (2) above must undergo a preliminary evaluation of application eligibility (refer to the "3. Prerequisites for Application").

(Caution 2) **The applicant who has graduated from a Japanese University or is expected to graduate is not eligible.**

3. Prerequisites for Application

(1) Preliminary Examination

The applicant who falls under the category of the item (2) must undergo a preliminary evaluation of application eligibility. The concerned applicant must follow the procedures below.

a) Application Period

Monday, December 7, 2020 - 17:00, Friday, December 11, 2020

(In the case of submission via mail, the documents must be sent in a registered mail. Indicate the phrase "Application Form for Preliminary Evaluation is enclosed." in red on the front surface of the envelope.)

b) Application Documents

Submit all the documents listed below at once during the application period to the Support Office indicated in the section "I Programs and Number of Students to be Admitted" (page 4). V Miscellaneous

1. Instruction for Application

(1) Consult with the faculty who is expected to be your academic advisor about your research theme before applying.

For the information regarding faculties of the Graduate School of Advanced Science and Engineering, refer to the following website.

URL: <https://www.hiroshima-u.ac.jp/en/adse/research>

The consultation is held as part of information provision from the Graduate School and does not affect the result of the selection in any way.

- (2) The application document with a defect might be rejected. After the application documents are accepted, they shall not be returned and it is not allowed to amend the information described in them for any reason.
- (3) For the certificates, it is required to submit the original or a copy with the original certification. Any copy without the original certification will not be accepted as the valid certificate.
- (4) The score certificate of English-language proficiency submitted for the application for Earth and Planetary Systems Science Program in Science Programs, Engineering Programs, and Quantum Matter Program will be used for the following purposes.
 - ① Entrance examination
 - ② Statistics and analysis of English-language proficiency of applicants
- (5) The admission approval shall be withdrawn when it is found that the submitted documents contain any false indication.
- (6) The admission approval shall be withdrawn when the applicant who was expected to meet any of the application eligibilities at the time of application has failed to earn the expected degree or complete the expected school before the date of admission.
