For entrants in FY 2021

Appended Form 1

Specifications for Major Program

Name of School (Department) [Integrated Arts and Sciences(Integrated Global Studies)]

Program name (Japanese)	国際共創プログラム
(English)	Integrated Global Studies
1. Degree Awarded : Bachel	or of Arts and Sciences

2. Overview

The program of Integrated Global Studies has three basic principles – integrated thinking, global vision, and cooperative action – with the aim of fostering professionals who are able to discuss the various challenges facing international society from a global perspective, overcoming the differences that exist between nations, ethnic groups, cultures, and religions, and to engage in cooperative action with others. It encourages students to enhance their command of English and Japanese for communication, and offers a specialized education built on a foundation of a liberal arts education.

As such, students acquire the basic knowledge and methodologies of various academic fields through their study of the multidisciplinary subjects in the School of Integrated Arts and Sciences. This is intended to form the basis from which they will be able to discuss the various problems facing international society. Based on these, they take IGS subjects from three fields – *Culture and Tourism, Peace and Communication,* and *Environment and Society* – in order to acquire the knowledge and skills required for the practice of integrated global studies. This program values the student's self-initiative in choosing courses: students can either balance the three fields in order to acquire a core of knowledge and skills, or they can focus on subjects based on one field according to their respective goals and interests.

In addition, in this program, students from various nationalities and language backgrounds study together using English as a common language. The classes often employ group discussion and active learning. The students work and learn in English, in collaboration with students from different nationalities, in order to eventually acquire the flexibility and cooperative attitude necessary for working together with people from diverse cultural and religious backgrounds, an attitude of respect for different cultures, great sensitivity, and the ability to negotiate and express opinions in English.

Students who have obtained such capabilities can choose their career path in the future as follows; they can work in leadership roles in international institutions or companies that are growing internationally, and in government organizations in their own native countries; they can also work as researchers by going on to graduate school, in Japan or overseas, to continue their studies into the various challenges facing international society. 3. Diploma Policy (Policy for awarding degrees and goal of the program)

The Integrated Global Studies Program has three basic principles – *Integrated Thinking*, *Global Vision*, and *Cooperative Action* – with the aim of fostering self-motivated and independent professionals, who are able to grasp issues from a global perspective that crosses the differences that exist between nations, ethnic groups, cultures, and religions, and have the interdisciplinary knowledge and wide range of insights, based on technical knowledge and thinking abilities, that are required in order to identify issues, analyze their causes, and find solutions. The program requires students to enhance their language skills for communication, and to take a specialized education built on the foundation of a liberal arts education. The program enables students to collaborate with others in different positions, and to work cooperatively for solutions in order to develop their ability to put integrated global studies into practice.

This program awards "Bachelor of Arts and Sciences" to students who have acquired the required number of credits set forth in the curriculum and acquired the following abilities:

- (1) Integrated Thinking: Understand and analyze the various challenges confronting the international community from multifaceted perspectives transcending disciplinary boundaries between the humanities and sciences.
- (2) Global Vision: Understand others irrespective of the differences among countries/regions, cultures, religions and languages, and think about things from a global perspective encompassing human society and its surrounding natural environment.
- (3) Cooperative Action: Address various challenges of the international community from a peace-seeking viewpoint, and work toward the realization of world peace and harmony between people and nature, in a cooperative and creative manner.

4. Curriculum Policy (Policy for organizing and implementing the curriculum)

The Integrated Global Studies Program organizes and implements the following educational curriculum in order to realize the diploma policy set forth for the program :

(1) In order to foster Integrated Thinking, the Integrated Global Studies Program offers interdisciplinary and integrated specialized education beyond the borders of humanities, social and natural sciences, and is built on their liberal arts education. In the 2nd year students start studying Multidisciplinary Subjects, and then IGS Subjects, one subject of which, in principle, is completed in eight weeks and acquires one credit. Therefore, they are able to touch on a greater number of academic fields in order to acquire a broad range of knowledge, which is intended to enable students to foster the ability to understand events from a Global Vision and with Integrated Thinking. They also have the opportunity to take classes offered not only at the Department of Integrated Arts and Sciences but also at other schools, to enhance their specialization or to enable them to take interdisciplinary studies in other fields. The Graduation Thesis in the 4th year, as a practical educational task, requires students to fully exert their expertise and utilize their Integrated Thinking.

- (2) 1st year: Students take Liberal Arts Education, including Foreign Languages. They are also required to take the *Introductory Seminar for 1st year students* and *Contemporary Issues of Japan II* offered in the 1st semester, as well as and *Contemporary World Issues I* offered in the 2nd semester, in order to learn about the three fields *Culture and Tourism, Peace and Communication*, and *Environment and Society*. Through courses and discussions among students, they will come to understand interdisciplinary approaches to the various problems facing the international society.
- (3) 2nd year: Students take Multidisciplinary Subjects in order to learn basic knowledge and methodologies in various fields as a foundation for discussing the various problems of international society. At the same time, they take IGS core subjects to foster their basic literacy and learn the subject. Based on this foundation, they will acquire a wide range of knowledge, skills, and thinking abilities useful for integrated global studies across a whole framework of academic fields. Students who are Japanese native speakers will study abroad for about half a year, where the credits they have acquired will be approved as credits for Elective Subjects. Students can take advanced language subjects from the 2nd year onward.
- (4) 3rd year: Students gain experience in group work with those belonging to diverse cultures, nationalities, and different areas of expertise, in *Project-Type Problem Solving Research* and *Global Internship Subjects*, while continuing to take IGS subjects to enhance their expertise. They can also select Elective Subjects offered in Japanese at the Department of Integrated Arts and Sciences, and at other schools, in order to further enhance their expertise. It will be useful for students who are not Japanese native speakers to take Specialized Subjects offered in Japanese at the Department of Integrated Arts and Sciences, in order to enhance their command of the advanced Japanese language.
- (5) 4th year: Students are required to take the *Graduation Thesis*. Select one of the following:
 - A. Research-Oriented Track

In order to enhance their *Integrated Thinking* and expertise, students take the *Graduation Thesis* to acquire six credits. Those who hope to go on to the graduate school will need to take this course. They must prepare their graduation thesis in English, in principle, although students who are not Japanese native speakers can choose to write it in Japanese instead. They will be taught to utilize perspectives from more than one field and methodology in a comprehensive manner.

B. Practice-Oriented Track

In order to foster *Cooperative Action*, students are required to take seminars that are held in cooperation with companies and other outside organizations, and submit a short essay to acquire six credits for the *Graduation Thesis*. They must prepare the essay in English, in principle, although students who are not Japanese native speakers can choose to write it in Japanese instead.

5. Starting Timing and Conditions

This program starts at the time of admission. The general entrance examination in the School of Integrated Arts and Sciences is separated into two types, humanities and sciences; however, after entering the school, students have no restriction on how they acquire credits and select one of the fields. The program strongly recommends that students make a study plan based on their direction of learning when selecting the subjects in liberal arts education.

6. Obtainable Qualifications

None

7. Subjects and Lesson Contents

*See the graduation requirements in Attachment 1 for the subjects.

*See the syllabus published every academic year for the course contents.

8. Academic Results

*Refer to the relationship between the evaluation items and criteria in Attachment 2.

*Refer to the relationship between the evaluation items and subjects in Attachment 3.

* Refer to the curriculum schedule in Attachment 4.

9. Study in Graduation Thesis (Purpose, Assignment Method and Timing)

(1) Requirement to start the study

Students are required to acquire 100 or more credits including the *Contemporary Issues of Japan I*, *Contemporary Issues of Japan II and Contemporary World Issues I* by the end of the fall semester of the 3rd year. In addition, students speaking Japanese as a native language are, in principle, required to complete overseas studies.

(2) Choosing method and timing for academic advisor

a. One chief academic advisor and two or more sub-academic advisors are assigned.

b. Students select their chief academic advisor from among the full-time teachers in the Department of Integrated Global Studies (see Attachment 5).

c. Students decide on their chief academic advisor after consultation with their current tutor from September to October of the 3rd year; then they decide on their sub-academic advisors by the end of the 4th term of the 3rd year.

d. Any change of chief academic advisor will be discussed and finalized at the IGS Academic Affairs Subcommittee of the school. Those who wish to change their chief academic advisor must submit the form "Request for Change of Chief Academic Advisor for Graduation Thesis after receiving approval from the professors in charge.

(3) Starting Timing of Graduation Thesis

In principle, students start "Graduation Thesis" after their academic advisors are decided.

10. System of Responsibility

- (1) System of PDCA (Plan, Do, Check and Act)
 - a. The Academic Affairs Committee of the school has been set up to implement and evaluate the educational curriculum.
 - b. The Committee Chairperson, supported by the Vice-Chairperson, is responsible for its implementation.
 - c. The program is implemented under the responsibility of the Chair and Vice-Chair of the Academic Affairs Committee.

- d. The dean is generally responsible for its evaluation and improvement.
- (2) Evaluation of the Program
 - a. Perspectives for program evaluation:
 - Is the education curriculum systematically and appropriately arranged to attain its goals?
 - Are the contents of the lessons appropriate in relation to the system?
 - Has it been shown that students can attain the goals above the standard?
 - b. Method of evaluation
 - After the final class of each semester is completed, students answer a questionnaire for class evaluation.
 - c. The perspective and method of feedback to the students
 - Class evaluations are made in the Department of Integrated Global Studies using the professors' comments and the results of the students' questionnaires for improvement.
 - Overall program evaluation is made from working in partnership with the Academic Affairs Committee of School, the Graduate School Head Office, and the Evaluation Committee.

ub-tota	al 2: No. of credit	ts for Specialized Subjects	82			I	
	credits required for		128				

Note 1: As for Liberal Arts Education, the number shown in the column of "Year in which the subject is taken" shows the standard year in which you can start taking the course. If you fail to acquire credits, you can take the course later. As for Specialized Subjects, the number in the column of "Year in which the subject is taken" shows the year in which you can start taking the courses, and you can take the courses afterwards.

Note 2: You can include up to 8 credits from courses instructed in Japanese in Area Courses. If necessary, you can also take Foundation Courses instructed in Japanese after consultation with your tutor.

Note 3: You must acquire 12 credits from Area Courses and Foundation Courses.

Note 4: As for Foreign Languages courses, students who are native Japanese speakers must take 8 credits from English courses and 4 credits from Non-English Foreign Languages courses. Students who are not native Japanese speakers must take 12 credits from Japanese courses. Students who are admitted to be fluent in both English and Japanese must take 12 credits mainly from Non-English Foreign Languages courses. The foreign language study plan will be decided in consultation with your tutor. For the detailed criteria for language course enrollment, please refer to the section relating to Foreign Languages courses in the Student Handbook.

Note 5: School of Integrated Arts and Sciences multidisciplinary subjects are instructed either in English or Japanese. If two courses are offered with the same course name and one is instructed in Japanese and the other in English, credits for only one of them can be acquired. You must take 10 credits in total from the three divisions of Human Studies, Social Studies and Natural Studies. You must take at least 2 credits from each division.

Note 6: You must take 12 credits from IGS core subjects, including 4 credits for the required courses.

Note 7: As for IGS subjects, it is desirable for you to take subjects from all three fields ("Culture and Tourism," "Peace and Communication," and "Environment and Society") in a good balance. You must take at least 6 credits in total including 2 credits of the required courses from each field.

Note 8: You must select one course from "International Business Internship Course," "Overseas Internship Course," and "Community Activities Internship Course." You are required to acquire 6 credits through the course including 1 credit each for "Internship Orientation" and "Internship Reflection."

Note 9: (1) If you acquire more credits for Foreign Languages courses in the Liberal Arts Education, IGS core subjects or IGS subjects in the Specialized Subjects than required for graduation, you can count the excessive number of credits as credits for elective subjects. If students who are not Japanese native speakers acquire more than 12 credits for Japanese courses, you can count the excessive number of credits as credits for elective subjects.

- (2) You can include up to 16 credits from courses offered at the Department of Integrated Arts and Sciences in credits for elective
- (3) You can include up to 16 credits acquired at overseas universities in credits for elective subjects.
- (4) You can include up to 10 credits acquired from courses offered at other schools, etc. in credits for elective subjects.

Note 10: You must select "Research-oriented Track" or "Practice-oriented Track". In the Research-oriented Track, you are required to carry out graduation research and submit a graduation thesis. In the Practice-oriented Track, you are required to complete seminars in cooperation with organizations outside the university and submit a short paper.

Placement of Liberal Arts Education in the Major Program

The Program in Integrated Global Studies places Liberal Arts Education as an opportunity to cultivate the foundations of the ability to understand things in an interdisciplinary and comprehensive fashion by broadly encouraging an interest in study, rather than just to acquire the basic knowledge and techniques directly leading to students' specialties. The detailed academic contents to be acquired are as follows:

•Rich sensibility and flexible ideas, understanding of peace from a diversified standpoint, and understanding mutual relationships among specialized fields of research, etc.

Broaden students' perspectives, and change their viewpoints

•Acquisition of language skills, basic knowledge, the ability to utilize information, and understand of one's own language and culture and other languages and cultures, etc.
