

## “Striving for a university free of discrimination”

In December 2021, the University published “The Report on Inappropriate Postings such as Twitter and other SNS media”. Taking this opportunity, we will reevaluate the current situation of discrimination and prejudice in internationalized and diversified universities, the relationship between academia and free speech, and the responsibilities of students and faculty members, all in order to think about the key items that are necessary to realize a university and society free of discrimination and prejudice.
