“Molecular pathogenesis underlying muscle wasting and development of diagnosis tool for kidney disease in mice”

(骨格筋障害の病態学解析および腎障害の新たな評価モデルの構築)

演者 Speaker : **Tolulope Peter Saliu**

Molecular Nutrition Laboratory (分子栄養学研究室)

Muscle wasting is a debilitating condition that is inevitable as we age. Unfortunately, there is currently no effective therapy that can be used to treat muscle wasting. This study investigated the molecular pathogenesis of skeletal muscle wasting with a view of identifying novel drug targets.
