

## Seminar on the use of

**SciVal***Elsevier's  
Research performance  
Assessment tool*Understanding research trends and  
strategizing your research plan

SciVal is a research performance assessment tool that uses the publications in the Scopus database. Hiroshima University started using SciVal in April 2022. This seminar focuses on how researchers can use SciVal for strategic planning of research by analyzing the trend of a research area of your interest, finding potential institutions and researchers to collaborate with, and identifying suitable journals to publish in. You will learn practical tips on how to use SciVal through a demonstration of the product

## Date and Time

**Japanese: October 19<sup>th</sup> (WED), 2022, 6:00–7:00 pm**  
**English : October 20<sup>th</sup> (THU), 2022, 10:00-11:00 am**

## Presenter

**Mr. Shoji Takahashi** Customer Consultant,  
Research Intelligence, Elsevier Japan KK

At Elsevier, Shoji Takahashi provides consultation and training of SciVal and Scopus to academic and government customers. He has extensive knowledge of academic publishing and bibliographic-based research assessment. He has also published several papers about academic publishing and Elsevier products.
