In the Graduate School of Humanities and Social Sciences at Hiroshima University, there are common courses to foster professionals in HSS areas who have deep interests in specific fields of study and create a future human society by cooperating with experts from various areas. In this FD seminar, professors in charge of common courses will report results and issues found in their practices up to the present, and participants including graduate students will discuss what approaches and operations work desirably and effectively in HSS areas in order to realize the purpose of common courses.
