For entrants in FY 2023

Appended Form 1

Specifications for Major Program

Name of School (Program) [School of Letters, Humanities]

Program name (Japanese)	地理学・考古学・文化財学プログラム
(English)	Geography, Archaeology, and Cultural Heritage

1. Degree: Bachelor of Arts

2. Outline

The Program of Geography, Archaeology, and Cultural Heritage educates students to be able to relate mankind's historical heritage with various environmental elements in a coordinated fashion in order to understand a wide range of geosphere cultures from a comprehensive and interdisciplinary perspective.

- For the field of Geography, students have the opportunity to study subjects regarding human geography, physical geography, geographical information system, and topography.
- For the field of Archaeology, students have the opportunity to study subjects regarding research and education in Japanese and Asian archaeology, excavation of ruins, and practical field training.
- For the field of Cultural Heritage Study, students are given the opportunity to study subjects regarding art (paintings, sculptures, and calligraphy), artifacts (metalwork, lacquer work, dyeing and weaving, ceramics, arms, and armor), and buildings (Japanese castles, shrines and temples, and dwellings).

3. Diploma policies (degree conferment policy & Program attainment goals)

School of Letters adopts "to foster unique human resources with rich human nature who have broad basic academic abilities and expertise mainly in the field of humanities, who accurately look in modern society based on their acute sensitivities and objective perspectives" as its educational principle. To implement this principle, the School of Letters educational goals are "to inherit traditional research findings and methodologies; to deepen basic research in the areas of expertise; to always pay attention to new research fields and interdisciplinary fields; to actively promote wide-ranging research; to activate research always with a keen awareness of problems for modern society; to enhance foreign language proficiency; to acquire an information processing ability in line with the necessity of the areas of expertise; to cultivate modesty and flexibility in order to engage in constant self-improvement; and to foster an attitude to learn about human history and to value the spirit of international peace."

In this Program, based on these educational principles and goals, we set the following attainment goals:

- (1) To develop a basic understanding of and acquire wide range of knowledge regarding geography, archaeology, and cultural heritage studies;
- (2) To learn the methodologies related to the fields of geography, archaeology, and cultural heritage studies in order to develop fundamental research skills for the area; and
- (3) To acquire a wide range of basic academic skills and expertise to actively pioneer research in new areas and interdisciplinary fields.

To be awarded a degree after completing the curriculum in this Program, which is designed to attain these goals, students are required to meet the following conditions:

(1) Students shall be enrolled in this Program for a prescribed period, and shall acquire the prescribed number of

- credits by completing class subjects set by this Program, and
- (2) Students shall develop a deep insight into human culture through the collection, analysis, and critical consideration of sourcebooks and historical materials, and shall prepare and submit their own theses.
- 4. Curriculum policies (Policies for organizing & providing curricula)

This Program organizes and implements the following curricula to achieve the educational principles and educational goals of the School of Letters, as well as to attain the goals of this Program:

- (1) Students shall take liberal arts education subjects to acquire a broad education that provides the basis for specialized research, foreign language abilities, information processing ability, and a broad perspective on human problems such as peace-related problems in an interdisciplinary fashion,
- (2) Students shall be assigned to the educational program & the field of expertise in the second year, and shall take subjects for specialized lectures to acquire a basic knowledge and understanding on their respective fields of expertise,
- (3) Students shall take participatory and small-class subjects for specialized seminars (such as basic seminars and advanced seminars) in the third year to acquire the ability to comprehend the source materials, the ability to investigate materials, research methods, and the ability to perform logical analysis, and
- (4) Students shall refine their creative and multifaceted analytical abilities under the guidance of faculty members in their fourth year, and after deciding on the theme of their theses, shall prepare their graduation theses as a compilation of their studies in the Bachelor Program.
- 5. Start of the Program & specialized field / admission conditions

Second year / Respecting each student's choice, we will use the following method to screen students at the end of the first year using their registration for subjects after enrollment at this University as a reference.

Students enrolled via the Splendor (Hikari Kagayaki) Entrance Examination Comprehensive Selection Type II will be assigned to the program for which they took examination.

(1) Submission of a notice of choice

Submit your notice of choice and written reasons for choosing the educational program and field of expertise by the last day of January in the first year.

- (2) The method of screening applicants shall be based on the following items.
 - When the number of applicants is within the number of students to be accepted: Accept all applicants as requested
 - When the number of applicants exceeds the number of students to be accepted: Accept the students with the top academic achievements until the number of students to be accepted is fulfilled.

Students who are not accepted for their first choice will be accepted for their subordinate choices within the number of students to be accepted by the order of their academic achievements.

- 6. Qualification(s)
 - Type-1 Junior High School Teaching License (Japanese, Social Studies, English, German, and French)
 - Type-1 High School Teaching License (Japanese, Geography & History, Civics, English, German, and French)
 - Qualification for a curator
- 7. Class subjects and class content
 - * See the Table of Registration Standards on Attached Sheet 1 for your class subjects.
 - * See the syllabus announced in each fiscal year for the class content.
- 8. Academic achievements

At the end of each semester, evaluation criteria will be shown with a clear indication of attainment standards according to the evaluation items for academic achievements.

Students' academic achievements from admission to the current semester will be indicated as one of three levels: "Excellent," "Very Good," and "Good," based on evaluation criteria calculated by adding the weighted values to numerically converted evaluations of their academic achievements (S = 4, A = 3, B = 2, and C = 1) in each subject being evaluated.

Evaluation of academic	Converted
achievement	value
S (Excellent: 90 points or higher)	4
A (Superior: 80 – 89 points)	3
B (Good: 70 – 79 points)	2
C (Fair: 60 – 69 points)	1

Academic achievement	Evaluation criteria
Excellent	3.00 - 4.00
Very Good	2.00 - 2.99
Good	1.00 – 1.99

For the details of the evaluation method of academic achievements in this Program:

- * See the relationships between the evaluation items and evaluation criteria on Attached Sheet 2.
- * See the relationships between the evaluation items and class subjects on Attached Sheet 3.
- * See the Curriculum Map on Attached Sheet 4.
- 9. Graduation thesis (graduation research) (placement and time of assignment & method)

o Placement

With the graduation thesis positioned as the goal of this Program, students will be required to acquire four credits for Guidance on Graduation Theses, and eight credits for their graduation thesis. Your graduation thesis is a compilation of your academic achievements in this Program. The purpose of preparing a graduation thesis is to confirm the level of your academic achievements in this Program and to allow for further studies after graduation.

o Time of assignment and method to prepare a graduation thesis

In the first semester of the fourth year, based on the research theme each student selects in advance, students will select the faculty member who will provide guidance on their graduation thesis, and submit the title of their graduation thesis at the end of October, and the graduation thesis itself at the end of January.

10. Responsibility system

PDCA responsibility system ("Plan," "Do," "Check," and "Act")

The Faculty Council of the Program of Geography, Archaeology, and Cultural Heritage shall be responsible for planning, implementing, reviewing the evaluation of and carrying out any measures required for this Program. The university-wide Educational Quality Assurance Committee shall review the evaluation of and carry out any required measures for this Program from outside this Program.

Curricula of School of Letters

No. of credits required for graduation: 124 (liberal arts education subjects: 40 credits, specialized education subjects: 84 credits)

- Note 1: The term indicated with a circle represents the term in which students typically take the subject. If a student fails to earn the credit in that term (or semester), they are allowed to take the subject in a later term (or semester). Students are required to confirm the semester in which the subject is provided in the class schedule for liberal arts education subjects that is published for every academic year, as some subjects may be provided in another term (or semester) than that which is provided in this document.
- Note 2: Students are required to earn 4 credits for 2 subjects or more in the natural sciences and 4 credits for 2 subjects or more in the human & social sciences.
- Note 3: When the student takes a subject of Advanced Seminar, Health and Sports Courses, Social Cooperation Courses or Foundation Courses, the credit(s) is considered to be for Area Courses.
- Note 4: For English language studies and Non-English Foreign Languages, achievement in Foreign Languages skill test might be accepted as a credit. For further details, refer to "Foreign Languages" and "Credit based on Achievement in Foreign Language Skill Test" in the section for liberal arts education.
- Note 5: The credits of Area course and Social Cooperation course in English, which are gained more than required, could be counted as credits of English subjects.
- Note 6: Students are required to earn 2 credits for either Basic English Usage I, II or Intensive Studies I, II. Those who want to study foreign languages(excluding English) futher are recommended to take Intensive studies I, II. If students earn more credits of them than the number of credits required, the exceeded credit(s) up to 2 credits is considered to be for Area Courses.
- Note 7: For Information and Data Science studies, students are required to take the subject "Introduction to Informtion and Data Sciences" that is provided in the second term, and to earn 2 credits in the subjects of "Computer Programming", "Intelligence and Computer", "Foundamental Data Science", "Starting Programming from Scratch" and "Data science for education". If students earn more credits of them than the number of credits required, the exceeded credit(s) up to 2 credits is considered to be for Area Courses.
- Note 8: Students who want to obtain an educational personnel certification are required to earn 2 credits for the subject "Japanese Constitution" in Area Courses, 2 credits for the subject "Introduction to Information and Data Sciences" in Information and Data science Courses, and 2 credits in Health and Sports Courses. For the detail, refer to "Acquisition of Educational Personnel Certification" in the section for the specialized education.

	Acquisition of the ability of grasping and (1) analysing things and phenomena by fieldwork and experimental approach	To be able to accurately understand and make a record of materials and field data of research objects on Geography, Archaeology and Cultural Heritage, and to have the ability to sufficiently clarify its characteristics by analyzing and considering them	To be able to accurately understand and make a record of materials and field data of research objects on Geography, Archaeology and Cultural Heritage, and to have the ability to clarify its characteristics by analyzing and considering them	To be able to understand and make a record of materials and field data of research objects on Geography, Archaeology and Cultural Heritage, and to analyze and consider them
	(2) Acquisition of the ability of operating surveying and drawing instruments, video apparatus and computer and acquisition of the basic ability of information processing and visual expression	To be able to accurately use research instruments and equipments on Geography, Archaeology and Cultural Heritage, to make the research objects into documentation and data effectively, and to adequately apply them into research resources	To be able to accurately use research instruments and equipments on Geography, Archaeology and Cultural Heritage, to make the research objects into documentation and data effectively, and to apply them into research resources	To be able to use research instruments and equipments on Geography, Archaeology and Cultural Heritage, to make the research objects into documentation and data effectively, and to apply them into research resources
Comprehensive Abilities	Acquisition of the ability of organizing the research results and one's opinions logically and presenting them	To aquire the adequate logical thinking ability and be able to organize and demonstrate one's opinions and research results logically and accurately	To aquire the adequate logical thinking ability and be able to organize and demonstrate one's opinions and research results logically	To aquire the logical thinking ability and be able to organize and demonstrate one's opinions and research results
	(4) Acquisition of the ability of setting the research theme and soloving the problems	To set one's target through four-year studying, have the adequate ability to solve one's issues, and develop the ability	To set one's target through four-year studying, have the adequate ability to solve one's issues	To set one's target through four-year studying, have the ability to solve one's issues
	Acquisition of the ability of negotiating and (5) communicating with others through research activities	To aquire the adequate ability to negotiate and communicate with others through fiels research and presententaion in seminar and develop the ability	To aquire the adequate ability to negotiate and communicate with others through fiels research and presententaion in seminar	To aquire the ability to negotiate and communicate with others through fiels research and presententaion in seminar
	(6) Acquisition of the ability of understanding professionally region and culture	To aquire the ability to understand regions and cultures profoundly and professionally through four-year student life and develop the ability	To aquire the ability to understand regions and cultures profoundly and professionally through four-year student life	To aquire the ability to understand regions and cultures professionally through four-year student life

Placement of Liberal Arts Education in the Major Program

The liberal arts education in this program aims not only to develop students' basic academic skills for the study of specialized subjects, but also to learn the methods, results, and challenges of studying various subject areas in order to establish a unique point of view that can be used for the furthering of said specialized studies.
