

Symposium to Promote Gender Balance & Diversity in Science

科学におけるジェンダー バランスと多様性の促進

IN CELEBRATION OF
INTERNATIONAL
WOMEN'S DAY

Tues, 27 Feb 2024

10 am - 4:30 pm, Lunch Mixer: Noon

Hybrid: Library Hall & Online

Hiroshima University Central Library, Higashi-Hiroshima Campus

~Diverse Perspectives of Women in Science To Support the Next Generation~

次世代を支える女性科学者の多様な視点

This inspiring event features renowned keynote speaker, Professor Helen Gleeson (University of Leeds), who will share her insights on opening doors for women and those with non-traditional backgrounds, having herself overcome many barriers along her academic path. Other speakers will discuss initiatives and opportunities for promoting diversity in science.

In the afternoon, a diversity of esteemed scientists will highlight their work and discuss their career trajectories, which hopes to provide practical insights and inspiration to all those navigating their careers in science, especially for women and underrepresented groups.

The symposium will include a lunch with mixer, offering an excellent opportunity for attendees to connect with peers, mentors, and leaders in the field over food and beverages. This event is in English.

Speakers

Prof. TANAKA Junko 田中純子

Executive VP of Kasumi Campus, Faculty Personnel and Public Relations, HU

Prof. SUZUKI Yumiko 鈴木由美子

Executive VP of Education and Peacebuilding, Director of The Institute for Diversity & Inclusion, HU

Dr. Helen Gleeson

U of Leeds
