<p>8. Academic achievements</p>

At the end of each semester, evaluation criteria will be shown with a clear indication of attainment standards according to the evaluation items for academic achievements.

Students' academic achievements from admission to the current semester will be indicated as one of three levels: "Excellent," "Very Good," and "Good," based on evaluation criteria calculated by adding the weighted values to numerically converted evaluations of their academic achievements (S = 4, A = 3, B = 2, and C = 1) in each subject being evaluated.

Evaluation of academic achievement	Converted value
S (Excellent: 90 points or higher)	4
A (Superior: 80 – 89 points)	3
B (Good: 70 – 79 points)	2
C (Fair: 60 – 69 points)	1

Academic achievement	Evaluation criteria
Excellent	3.00 – 4.00
Very Good	2.00 – 2.99
Good	1.00 – 1.99

9. Graduation thesis (graduation research) (placement and time of assignment & method)

o Placement

With the graduation thesis positioned as the goal of this Program, students will be required to acquire four credits for Guidance on Graduation Theses, and eight credits for their graduation thesis. Your graduation thesis is a compilation of your academic achievements in this Program. The purpose of preparing a graduation thesis is to confirm the level of your academic achievements in this Program and to allow for further studies after graduation.

o Time of assignment and method to prepare a graduation thesis

In the first semester of the fourth year, based on the research theme each student selects in advance, students will select the faculty member who will provide guidance on their graduation thesis, and submit the title of their graduation thesis at the end of October, and the graduation thesis itself at the end of January.

10. Responsibility system

PDCA responsibility system ("Plan," "Do," "Check," and "Act")

The Faculty Council of the Program of Geography, Archaeology, and Cultural Heritage shall be responsible for planning, implementing, reviewing the evaluation of and carrying out any measures required for this Program. The university-wide Educational Quality Assurance Committee shall review the evaluation of and carry out any required measures for this Program from outside this Program.

Note 1: The term indicated with a circle represents the term in which students typically take the subject. If a student fails to earn the credit in that term (or semester), they are allowed to take the subject in a later term (or semester). Students are required to confirm the semester in which the subject is provided in the class schedule for liberal arts education subjects that is published for every academic year, as some subjects may be provided in another term (or semester) than that which is provided in this document.

Note 2: Students are required to earn 4 credits for 2 subjects or more in the natural sciences and 4 credits for 2 subjects or more in the human & social sciences.

Note 3: When the student takes a subject of Advanced Seminar, Health and Sports Courses, Social Cooperation Courses or Foundation Courses, the credit(s) is considered to be for Area Courses.

Note 4: For English language studies and Non-English Foreign Languages, achievement in Foreign Languages skill test might be accepted as a credit. For further details, refer to "Foreign Languages" and "Credit based on Achievement in Foreign Language Skill Test" in the section for liberal arts education.

Note 5: The credits of Area course and Social Cooperation course in English, which are gained more than required, could be counted as credits of English subjects.

Note 6: Students are required to earn 2 credits for either Basic English Usage I, II or Intensive Studies I, II. Those who want to study foreign languages(excluding English) further are recommended to take Intensive studies I, II. If students earn more credits of them than the number of credits required, the exceeded credit(s) up to 2 credits is considered to be for Area Courses.

Note 7: For Information and Data Science studies, students are required to take the subject "Introduction to Information and Data Sciences" that is provided in the second term, and to earn 2 credits in the subjects of "Computer Programming", "Intelligence and Computer", "Foundational Data Science", "Starting Programming from Scratch" and "Data science for education". If students earn more credits of them than the number of credits required, the exceeded credit(s) up to 2 credits is considered to be for Area Courses.

Note 8: Students who want to obtain an educational personnel certification are required to earn 2 credits for the subject "Japanese Constitution" in Area Courses, 2 credits for the subject "Introduction to Information and Data Sciences" in Information and Data science Courses, and 2 credits in Health and Sports Courses. For the detail, refer to "Acquisition of Educational Personnel Certification" in the section for the specialized education.
