

部局名 Graduate School	Graduate School of Biosphere Science	
専攻 Major	Department of Bioresource Science Department of Biofunctional Science and Technology Department of Environmental Dynamics and Management	
出願期間 Application Period	To be determined	
出願書類 Required Documents	Application forms, Academic records (GPA), Certificate of degree, Certificate of graduation or expected graduation, Personal History, Research proposal, Certificate of TOEFL/TOEIC/IELTS score, Medical certificate.	
選考方法 Selection Method	After initial document screenings and report submission, applicants will be interviewed (through the Internet).	
試験実施日 Examination Day	To be determined	
入学時期 Admission Semester	October / April

	FAX番号 FAX	(+)81-82-424-6480
研究科概要 Graduate School Outline 研究キーワード Research Key Words	<p>The Graduate School of Biosphere Science aims to pursue programs of education and research that contribute to human welfare and peace through the scientific investigation of biosphere phenomena and the resolution of problems in order to achieve a harmonious coexistence of mankind and nature. It is committed to responding positively to the demands of the times and the needs of our society by pursuing educational and research activities in accordance with the following aims:</p> <ol style="list-style-type: none"> 1) To create and develop sustainable biological production activities in harmony with nature; 2) To develop technologies for harnessing bioresources and their functions, and applying them to human lives; and 3) To develop technologies for forecasting, controlling, and evaluating recirculations in our biosphere. <p>This graduate school consists of three departments: 1) Department of Bioresource Science (Animal Science, Aquatic Biology, and Food and Resource Economics); 2) Department of Biofunctional Science and Technology (Molecular and Applied Biosciences, and Food Science and Biofunctions); and 3) Department of Environmental Dynamics and Management (Modeling and Management of Environmental Dynamics, and Assessment of Environmental Dynamics). Each department has two or three divisions (shown in the parentheses above) and undertakes research in several specialties.</p>
