I also would recommend researching for a sim card that suits you the most. In my case I chose giffgaff which I ordered online, I had them prepared before going to the UK.

You will not usually find rice meals in stores unlike here in Japan. I advise buying kitchenware to cook your own rice. I did not encounter any allergic reaction to the food I ate in the UK.

This was my first time venturing abroad solo, and the experience has been transformative. It provided me with a newfound sense of independence, resilience, and adaptability. Navigating a foreign environment alone not only challenged me but also allowed me to discover strengths I did not know I had.

② 留学期間中, 最も印象に残った体験・出来事/What was the most impressive experience in your study abroad experience?

The volunteer work I participated in during Christmas was undeniably one of the most memorable highlights of my time abroad. It provided me with a unique opportunity to immerse myself in the cherished traditions and festivities of Christmas in the UK. Witnessing firsthand how people in the UK celebrate this joyous occasion with their families and friends was truly enlightening. The event itself was a delightful mix of generations, with participants ranging from the young to the elderly. The atmosphere was filled with the cheerful melodies of a band playing Christmas songs, the heartwarming harmonies of groups singing carols, and the festive sight of individuals donning Christmas-themed attire as they joined in the caroling. As a volunteer, my role included distributing minced pies to attendees, which not only allowed me to contribute to the event but also given me the opportunity to engage in conversations and interactions with them. These meaningful exchanges left a lasting impression on me, as I was able to connect with people from diverse backgrounds and share in the spirit of goodwill and camaraderie that epitomizes the holiday season. Overall, my involvement in this volunteer initiative was a truly enriching and unforgettable experience that deepened my appreciation for the cultural traditions and community spirit of Christmas in the UK.

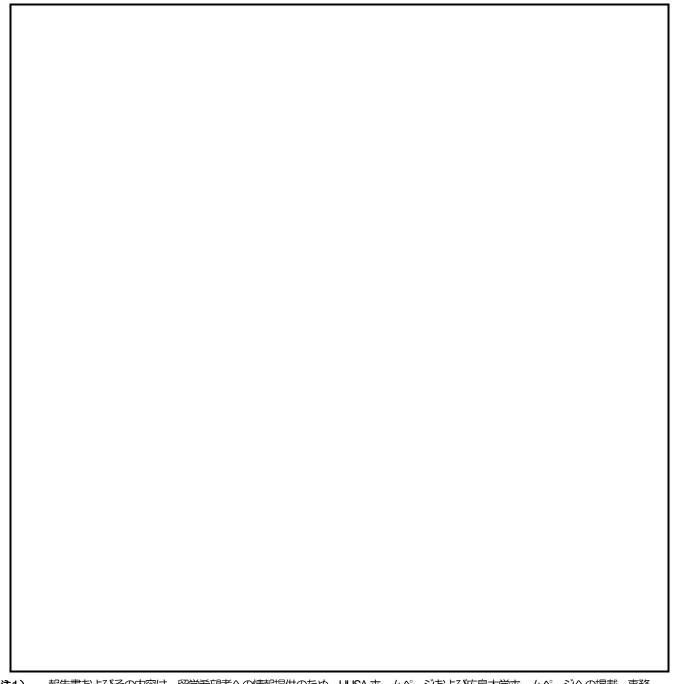

③ 留学の成果,留学前と比較して成長した点/What is your achievement through the study abroad experience? One of my major accomplishments from my study abroad experience was the profound personal and academic progress I achieved. Immersing myself in a new intellectual and cultural environment gave me significant opportunity for self-discovery and development. Academically, I gained new information and abilities through fascinating curriculum, various views, and hands-on learning opportunities. This not only extended my academic horizons but also helped me improve my critical thinking and problem-solving skills. Personally, I developed resilience, flexibility, and independence as I navigated unknown situations and took on new tasks. Furthermore, my study abroad experience helped me develop cross-cultural knowledge and communication skills, allowing me to interact with people from all backgrounds while navigating cultural differences with care and respect. My study abroad journey empowered me to become a more confident, well-rounded individual equipped with the skills and experiences necessary to thrive in a globalized world.

④ 今回の留学での経験や成果を今後どのように活かしたいか(将来のキャリアパスも含めて)/How do you want to make use of your study abroad experience in the future including your career? I aim to apply the cross-cultural skills and global perspectives gained from my study abroad experience to excel in a diverse professional environment, while also fostering personal growth and contributing to global awareness and understanding.
