

Accelerating Academic Writing: An Efficient Approach with Paperpal

Outline

Discover how to accelerate your academic writing journey with Paperpal, an AI-powered academic writing assistant built specifically for researchers. This hands-on session will walk you through how Paperpal supports every stage of the writing process, from drafting to submission, while helping you maintain academic rigor and your unique research voice.

Speaker

Shardool Nair

Shardool Nair, part of the Product team at Cactus Labs, helps develop researcher-focused solutions like Paperpal. With a master's in biotechnology and three years of research experience in reproductive and cancer biology, followed by a stint as an academic editor at Editage, he brings deep insights from academia and publishing to create technologies that help researchers succeed faster.
