

# For entrants in AY 2026

Appended Form 1

## Specifications for Major Program

Name of School (Program) [School of Letters, Humanities]

Program name (Japanese)	歴史学プログラム
(English)	History
1. Degree: Bachelor of Arts	
2. Outline The Program of History educates students to be able to understand historical characteristics of Japan, Asia, and Europe, as well as global relationships between those countries and regions, in addition to conducting history research from a comprehensive and multifaceted point of view. • For Japanese History, the Program offers subjects regarding medieval, early modern, and modern Japanese history to allow students to learn research methods for each era. • For Asian History, the Program offers subject such as pre-modern and modern Chinese history, and Southeast-Asian history, Central Eurasian History to allow students to learn specialized research methods for each area. • For Western history, the Program offers subjects regarding the ancient Mediterranean world, medieval European history, and modern European history to allow students to learn research methods for each era and region.	
3. Diploma policies (degree conferment policy & Program attainment goals) School of Letters adopts “to foster unique human resources with rich human nature who have broad basic academic abilities and expertise mainly in the field of humanities, who accurately look in modern society based on their acute sensitivities and objective perspectives” as its educational principle. To implement this principle, the School of Letters educational goals are “to inherit traditional research findings and methodologies; to deepen basic research in the areas of expertise; to always pay attention to new research fields and interdisciplinary fields; to actively promote wide-ranging research; to activate research always with a keen awareness of problems for modern society; to enhance foreign language proficiency; to acquire an information processing ability in line with the necessity of the areas of expertise; to cultivate modesty and flexibility in order to engage in constant self-improvement; and to foster an attitude to learn about human history and to value the spirit of international peace.” In this Program, based on these educational principles and goals, we set the following attainment goals: (1) To acquire a wide range of basic academic skills and expertise regarding Japanese history, Asian history, Western history, and learning related to these areas; (2) To acquire the ability to formulate new ideas based on a student’s own awareness of issues and interpretation of historical materials, while following the results and methodologies of established research in their respective fields such as Japanese history, Asian history, and Western history; and (3) To further advance the fundamental research in each student’s field of study and to acquire an international point of view and critical thinking, as well as the ability to collect and analyze materials and data, the ability to think logically and creatively, and the skills to participate in discussions and give presentations.	

To be awarded a degree after completing the curriculum in this Program, which is designed to attain these goals, students are required to meet the following conditions:

- (1) Students shall be enrolled in this Program for a prescribed period, and shall acquire the prescribed number of credits by completing class subjects set by this Program, and
- (2) Students shall develop a deep insight into human culture through the collection, analysis, and critical consideration of sourcebooks and historical materials, and shall prepare and submit their own theses.

4. Curriculum policies (Policies for organizing & providing curricula)

This Program organizes and implements the following curricula to achieve the educational principles and educational goals of the School of Letters, as well as to attain the goals of this Program:

- (1) Students shall take liberal arts education subjects to acquire a broad education that provides the basis for specialized research, foreign language abilities, information processing ability, and a broad perspective on human problems such as peace-related problems in an interdisciplinary fashion,
- (2) Students shall be assigned to the educational program in the second year, and shall take subjects for specialized lectures to acquire a basic knowledge and understanding on their respective fields of expertise,
- (3) Students shall take participatory and small-class subjects for specialized seminars (such as basic seminars and advanced seminars) in the third year to acquire the ability to comprehend the source materials, the ability to investigate materials, research methods, and the ability to perform logical analysis, and
- (4) Students shall refine their creative and multifaceted analytical abilities under the guidance of faculty members in their fourth year, and after deciding on the theme of their theses, shall prepare their graduation theses as a compilation of their studies in the Bachelor Program.

5. Start of the Program & specialized field / admission conditions

Second year / Respecting each student's choice, we will use the following method to screen students at the end of the first year using their registration for subjects after enrollment at this University as a reference.

In principle, Students enrolled via the Splendor (Hikari Kagayaki) Entrance Examination Comprehensive Selection Type II will be assigned to the program for which they took examination.

(1) Submission of a notice of choice

Submit your notice of choice and written reasons for choosing the educational program and field of expertise by the last day of January in the first year.

(2) The method of screening applicants shall be based on the following items.

- When the number of applicants is within the number of students to be accepted: Accept all applicants as requested
- When the number of applicants exceeds the number of students to be accepted: Accept the students with the top academic achievements until the number of students to be accepted is fulfilled.

Students who are not accepted for their first choice will be accepted for their subordinate choices within the number of students to be accepted by the order of their academic achievements.

6. Qualification(s)

- Type-1 Junior High School Teaching License (Japanese, Social Studies, English, German, and French)
- Type-1 High School Teaching License (Japanese, Geography & History, Civics, English, German, and French)
- Qualification for a curator

7. Class subjects and class content

\* See the Table of Registration Standards on Attached Sheet 1 for your class subjects.

\* See the syllabus announced in each fiscal year for the class content.

8. Academic achievements

At the end of each semester, evaluation criteria will be shown with a clear indication of attainment standards according to the evaluation items for academic achievements.

Students' academic achievements from admission to the current semester will be indicated as one of three levels: "Excellent," "Very Good," and "Good," based on evaluation criteria calculated by adding the weighted values to numerically converted evaluations of their academic achievements (S = 4, A = 3, B = 2, and C = 1) in each subject being evaluated.

Evaluation of academic achievement	Converted value
S (Excellent: 90 points or higher)	4
A (Superior: 80 – 89 points)	3
B (Good: 70 – 79 points)	2
C (Fair: 60 – 69 points)	1

Academic achievement	Evaluation criteria
Excellent	3.00 – 4.00
Very Good	2.00 – 2.99
Good	1.00 – 1.99

For the details of the evaluation method of academic achievements in this Program:

\* See the relationships between the evaluation items and evaluation criteria on Attached Sheet 2.

\* See the relationships between the evaluation items and class subjects on Attached Sheet 3.

\* See the Curriculum Map on Attached Sheet 4.

9. Graduation thesis (graduation research) (placement and time of assignment & method)

o Placement

With the graduation thesis positioned as the goal of this Program, students will be required to acquire four credits for Guidance on Graduation Theses, and eight credits for their graduation thesis. Your graduation thesis is a compilation of your academic achievements in this Program. The purpose of preparing a graduation thesis is to confirm the level of your academic achievements in this Program and to allow for further studies after graduation.

o Time of assignment and method to prepare a graduation thesis

In the first semester of the fourth year, based on the research theme each student selects in advance, students will select the faculty member who will provide guidance on their graduation thesis, and submit the title of their graduation thesis at the end of October, and the graduation thesis itself at the end of January.

10. Responsibility system

PDCA responsibility system ("Plan," "Do," "Check," and "Act")

The Faculty Council of the Program of History shall be responsible for planning, implementing, reviewing the evaluation of and carrying out any measures required for this Program. The university-wide Educational Quality Assurance Committee shall review the evaluation of and carry out any required measures for this Program from outside this Program.

## Curricula of School of Letters

No. of credits required for graduation: 124 (liberal arts education subjects: 40 credits, specialized education subjects: 84 credits)

## Liberal arts education subjects

Type	Subject type		Required credits	Class subjects	Credits	Type of course registration	Year in which the subject is taken (Note 1)					
							1st					
							1st semester		2nd semester

			(Note 7)	2	Elective required			○	○			
Health and Sports Courses		(0)	(Note 3) (Note 8)	1又は2	Free elective	○	○	○	○			
Social Cooperation Courses		(0)	(Note 3) (Note 5)	1又は2	Free elective	○	○	○	○			
Foundation Courses		(0)	(Note 3)	1~3	Free elective	○	○	○	○			
計			40									

Note 1: The term indicated with a circle represents the term in which students typically take the subject. If a student fails to earn the credit in that term (or semester), they are allowed to take the subject in a later term (or semester). Students are required to confirm the semester in which the subject is provided in the class schedule for liberal arts education subjects that is published for every academic year, as some subjects may be provided in another term (or semester) than that which is provided in this document.

Note 2: Students are required to earn 4 credits for 2 subjects or more in the natural sciences and 4 credits for 2 subjects or more in the human & social sciences.

Note 3: When the student takes a subject of Advanced Seminar, Health and Sports Courses, Social Cooperation Courses or Foundation Courses, the credit(s) is considered to be for Area Courses.

Note 4: For English language studies and Non-English Foreign Languages, achievement in Foreign Languages skill test might be accepted as a credit. For further details, refer to "Foreign Languages" and "Credit based on Achievement in Foreign Language Skill Test" in the section for liberal arts education.

Note 5: The credits of Area course and Social Cooperation course in English, which are gained more than required, could be counted as credits of English subjects.

Note 6: Students are required to earn 2 credits for either Basic English Usage I, II or Intensive Studies I, II. Those who want to study foreign languages(excluding English) further are recommended to take Intensive studies I, II. If students earn more credits of them than the number of credits required, the exceeded credit(s) up to 2 credits is considered to be for Area Courses.

Note 7: For Information and Data Science studies, students are required to take the subject "Introduction to Information and Data Sciences" that is provided in the second term, and to earn 2 credits in the subjects of "Computer Programming", "Intelligence and Computer", "Fundamental Data Science", "Starting Programming from Scratch" and "Data science for education". If students earn more credits of them than the number of credits required, the exceeded credit(s) up to 2 credits is considered to be for Area Courses.

Note 8: Students who want to obtain an educational personnel certification are required to earn 2 credits for the subject "Japanese Constitution" in Area Courses, 2 credits for the subject "Introduction to Information and Data Sciences" in Information and Data science Courses, and 2 credits in Health and Sports Courses. For the detail, refer to "Acquisition of Educational Personnel Certification" in the section for the specialized education.

Specialized Education Subjects

Program of History

Type	Class subjects		Semester	Credits	Type of course registration	Remarks
Basic specialized subjects: 26 credits	Introductory subjects		1-2	6	Elective required subjects	Up to 2 of any credits can be used as credits in free elective subjects.
	English A,B		3-4	2	Required subjects	Subjects in the common subject group of educational programs offered by the School of Letters.
	General Introduction to Human Science		3-8	6	Elective required subjects	
	Subjects for the Introduction and research methods in the "Field of Geography", "Field of Archaeology" or "Field of Cultural Heritage".					
	Free elective subjects		1-8	12	Elective required subjects	Choose subjects from specialized education subjects offered by the School of Letters or by other faculties, or from subjects offered by the Center, etc.
Specialized subjects: 46 credits	Specialized lectures	Subjects for the Introduction and research methods in the Program of History	3-6	46	Elective required subjects	
	Specialized practical studies and Specialized seminars	Subjects for the Practical studies, Basic seminars and Advanced seminars in the Program of History	3-8

Relationships between the evaluation items and evaluation criteria

Academic achievements		Evaluation criteria		
Evaluation items		Excellent	Very Good	Good
Knowledge and Understanding	(1) Acquisition of wider views to consider issues interdisciplinarily and comprehensively	To be able to consider and precisely understand various problems from multiple viewpoints	To be able to consider and understand various problems from multiple viewpoints	To be able to consider various problems from multiple viewpoints
	(2) Basic understanding of history of Japan, the East and the West	To acquire the knowledge concerning History and be able to utilize the knowledge in research area	To acquire the knowledge concerning History and be able to improve understanding it	To acquire the knowledge concerning History and be able to talk about its outlines
Abilities and Skills	(1) Acquisition of skills which are the basis for intellectual activities	To be able to sufficiently utilize basic skills needed to acquire the technical knowledge	To be able to apply basic skills needed to acquire the technical knowledge	To be able to use basic skills needed to acquire the technical knowledge
	(2) Acquisition of research method on History	To be able to fully understand research methods of History and utilize them for one's research	To be able to understand research methods of History and utilize them for one's research	To be able to understand research methods of History to some extent and utilize them for one's research partially
	(3) Acquisition of reading skills of original texts on History	To be able to utilize basic materials such as dictionaries and indices and understand original materials and texts by oneself	To be able to utilize basic materials such as dictionaries and indices and understand original materials and texts to some extent	To be able to utilize basic materials such as dictionaries and indices
Comprehensive Abilities	(1) Acquiring the ability of gathering, organizing and analyzing documentary evidences and data	To acquire excellent skills for collecting, summarizing and analyzing evidences and data and utilize the skills adequately	To acquire good skills for collecting, summarizing and analyzing evidence and data and apply the skills	To acquire skills for collecting, summarizing and analyzing evidences and data and utilize the skills to some extent
	(2) Acquiring the ability to consider and solve various problems by thinking logically	To acquire the excellent ability to think logically, consider and solve various problems, and sufficiently utilize the ability	To acquire the good ability to think logically, consider and solve various problems, and apply the ability	To acquire the ability to think logically, consider and solve various problems, and utilize the ability to some extent
	(3) Acquiring the ability of deriving structural and unique opinions and logically expressing them in spoken and written forms	To be able to lead very structural and original interpretation to the advanced level, acquire the excellent ability to express it logically in spoken and written forms and adequately utilize it	To be able to lead very structural and original interpretation, acquire the good ability to express it logically in spoken and written forms and apply it	To be able to lead very structural and original interpretation, acquire the ability to express it logically

Placement of Liberal Arts Education in the Major Program

The liberal arts education in this program aims not only to develop students' basic academic skills for studying specialized subjects, but also to learn the methods, results, and challenges of studying various subjects including those of natural science to establish a unique point of view that can be used for the furthering of said specialized studies. Students who want to study Asian or Western history are required to learn foreign language skills required for reading historical materials.
