Application Guide

Joint International Master's Programme in Sustainable Development (Hiroshima University - University of Graz)

◆General Selection for Joint Degree Programs

[for Applicants who choose Hiroshima University as the entrance university]

September 2026

Hiroshima University

***These guidelines are for applicants who wish to enroll at Hiroshima University as their entrance (home) university in October 2027.** Please note that applicants who choose the University of Graz as their entrance (home) university cannot apply using these application guidelines.

—What is the Joint Degree Program?—

The Joint Degree Program is an academic framework in which multiple universities collaborate to design a shared curriculum and award a single degree jointly upon completion. Hiroshima University offers a Joint Degree Program in collaboration with the University of Graz, focusing on the theme of Sustainability Studies (Sustainable Development).

Students enrolled in the two-year master's program spend one year studying at Hiroshima University and one year at the partner university (University of Graz). Upon successful completion, graduates are awarded a jointly conferred Master of Science degree.

Participants in this program benefit from advanced education that leverages the expertise of each institution while experiencing diverse cultures and academic environments. This unique structure helps students naturally develop language skills and intercultural competence, broadening their global perspective.

The degree jointly awarded with the partner university upon completion of the program is expected to be highly regarded for further studies and career opportunities both in Japan and abroad. Another key feature of this program is the opportunity to build valuable networks through interactions with international students and faculty members.
