

# Education, Conflict and Peacebuilding:

**演題**

## Re-envisioning Education in Post-conflict Societies

**概要**

While the role of education in economic development and social change has been long celebrated, in recent years, the literature in the field of education and conflict studies has highlighted the contentious role of education in violent conflict. In this presentation, he will examine the nexus between education and armed conflict particularly, focusing on two post-conflict societies Cambodia and Nepal.
