

1st HU-SKKU Workshop

on Advanced Materials Research

Faculty Club 2F, Hiroshima University, Higashi-Hiroshima,
November 16-17, 2006, 9:00~

Topics :

- Materials design and crystal growth of f- and d-electron systems with multinary freedoms
- Nanosciences and nanotechnologies
- Neutron scattering, synchrotron radiation, and optical studies
- Magnetic and thermoelectric properties under extreme conditions

Organizers :

SKKU : J-G. Park
Y-S. Kwon,
HU : T. Jo
F. Iga
T. Takabatake

ADSM and IAMR, Hiroshima University
