

The World Bank Public Seminar “MDGs After the Crisis”

Time: 15:00-17:00 June 29 (Tue.), 2010

Venue: Large Conference Room, IDEC (1st floor)

Language: English

(Connecting Hiroshima University and World Bank Tokyo Office via video conference)

Speaker: Dr. Delfin Go

(Lead Economist, Development Prospects Group, The World Bank)

The Global Monitoring Report series, produced by the World Bank and the International Monetary Fund, focuses on how the world is doing in implementing the policies and actions for achieving the Millennium Development Goals (MDGs) and related development outcomes. The reports are a framework for accountability in global development policy. This year's Global Monitoring Report 2010: The MDGs after the Crisis examines the impact of the global financial recession on poverty and human development outcomes in developing countries.

Taking the opportunity of the visit by the lead author of this report, Dr. Delfin Go, Lead Economist, Development Prospects Group of the World Bank, the World Bank Tokyo Office will organize a public seminar “MDGs After the Crisis”, featuring his presentation to discuss challenges faced with developing countries in the area of MDGs, and what developing countries will need to implement.
