

**Announcement of Faculty Position**  
**Institute of Biomedical & Health Sciences, Hiroshima University, Japan**

January 11, 2017

Hiroshima University has been selected as one of the 13 Type A (top type) universities under the fiscal 2014 program to support the creation of super global universities. Hiroshima University aims to become one of the global top 100 universities by continuously fostering global leaders and creating knowledge while promoting university reforms centering on the twin pillars of educational and research capabilities.

The Institute of Biomedical & Health Sciences, Hiroshima University seeks applicants for professor. Now, we announce the recruitment is extended.

In education we seek a person as Professor who can instruct graduate and undergraduate students in anatomy and related subjects, while having sufficient knowledge to train students as advanced dental professionals or researchers in the School of Dentistry (Program of Dentistry and Program of Oral Health Science) and the Graduate School of Biomedical & Health Sciences.

Our School of Dentistry launched an International Dental Course in 2011 and is implementing student education to improve global student competency. In the school the Professor must conduct lectures as "dual linguistic education" using English and Japanese.

In research, we seek a person as Professor who can conduct biology-based scientific research in the field of dental medicine and oral health science (BioDental research) which is promoted in the School of Dentistry and dentistry-related-fields in the Graduate School of Biomedical & Health Sciences. This person shall be able to conduct research projects in cooperation with laboratories within and outside Hiroshima University.

We seek a person in the abovementioned fields who has enthusiasm for educational and clinical activities and can achieve excellent research results. This person shall understand the principles and visions of our institute, hospital and university and have belief in and passion for our faculty and university administration.

Hiroshima University has Center for Anatomical Science and Education to support research and educational activities in anatomy for various fields including medicine, dentistry, pharmaceutical and health sciences. We seek a person who engages in the management of this center.

We would appreciate it if you could send this announcement to relevant audiences. Also, we would be grateful if you could recommend someone who meets our requirements or encourage competent candidates to apply for this position.
