October 2017 Admission (Second admission) April 2018 Admission

TAOYAKA program offers **interdisciplinary educational opportunities** to develop young global leaders who can contribute to the **realization of multicultural coexistence**. A wide range of interdisciplinary course work on campus is integrated with **intensive on-site experience in disadvantaged areas in both developed and developing countries**, with special emphasis on improving lives by deeply understanding the regional societies and cultures, developing proper technologies, and implementing these to resolve problems that disadvantaged regions confront while working closely with the regions. **Students can receive degrees by taking courses taught in English.**
