

広島大学・大学院生物圏科学研究科 共同セミナー

Active Ingredients from Aromatic and Medicinal plants

Hany A. El-Shemy 教授

(エジプト・カイロ大学農学部長・広島大学客員教授)

Recently, there were discovered new compounds from medicinal plant and used as anti-sever diseases. Therefore, research topics dealing with isolation, purification and identification of active ingredients from wild and medicinal plants will add significant value for medical societies. As well, this discovery will led to increase the global pharmaceutical market as well as opining such new gate for medicinal plant research.

日時 : 平成29年7月10日(月)16:00~17:15

会場 : 生物生産学部C棟314講義室

共催: 次世代を救う 広大発 Green Revolution を創出する植物研究拠点

本セミナーは5研究科共同セミナーです。
