

## RCAS/JAB International Symposium

# Animal Biotechnology: from Genes to Cells

**Date and time** 2018.2.21 (Wed) 15:00-17:00

**Venue** Room C301, School of Applied Biological Science, Hiroshima Univ.

※本シンポジウムは5研究科共同セミナーとして実施します

### Program

15:00-15:05 Opening address

15:05-15:35 Invited Lecture 1

#### ‘Identification traits related genes with animal genome data’

Heebal Kim (Professor, Seoul National Univ.)

15:35-16:05 Invited Lecture 2

#### ‘Primordial germ cell for biomodulator of avian genome modification’

Jae Yong Han (Professor/Director, Seoul National Univ.)

16:05-16:25 Invited Lecture 3

#### ‘Key molecules active during meiotic maturation responsible for oocyte quality’

Yumi Hoshino (Assistant Professor, Hiroshima Univ.)

16:25-16:55 Invited Lecture 4

#### ‘Augment of transplantation by modulating behavior of spermatogenic stem cells’

Yoshiaki Nakamura (Assistant Professor, Hiroshima Univ.)

16:55-17:00 Closing address

**Organizer:** Teruo Maeda (Professor, Hiroshima Univ.)
